

Health and Safety – Messages

Enter your messages by clicking here

Agrismart Messages has a couple of capabilities:

- A message can be sent to staff when a new risk is created. These Messages are found on smart devices or PS's (more further down)
- A message can be sent for any other reason from within Messages itself.

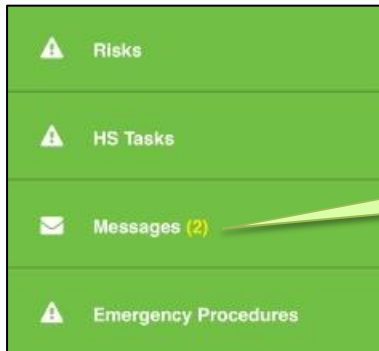

Message sent to Staff when a new Risk is created

When entering a new risk at the bottom of the Risk page there is “Notify Staff”

A screenshot of a web form titled 'Supporting Files'. It contains a 'New File(s)' section with a text input for 'file 1 description', a 'Browse...' button, and a 'No file selected.' message. Below this is a 'Notify Staff:' checkbox which is checked. A text input field for 'custom notification message ...' is visible below the checkbox. At the bottom of the form is an orange 'save' button with a floppy disk icon. A callout bubble points to the 'Notify Staff' checkbox.

By ticking the Notify Staff box a message field will present itself. Simply enter a message and press save.

Messages are found on mobile devices or PC's

Once logged into Agrismart on your mobile device Messages can be found here.

On Mobile devices message

On your PC, Top right hand corner are the current Messages which flash

A message can be sent for any other reason from within Messages itself
