

Health and Safety – Mobile devices

Once logged in on your mobile device you will find the layout different on your PC. This is because the software has been optimised for mobile devices. There is a limit to how much can be actually done on mobile devices, particularly on smart phones. The mobile capacity of Agrismart H&S is explained below.

The screenshot shows the mobile app interface for Agrismart H&S. At the top, the status bar displays 'Voda NZ', the time '3:18 PM', and battery level. The app header is green with a close button (X) and a menu icon (three horizontal lines). Below the header is a 'NAVIGATION' section with several menu items: 'Risks' (with a warning icon), 'HS Tasks' (with a warning icon), 'Messages' (with an envelope icon), 'Emergency Procedures' (with a warning icon), 'Desktop Version' (with a monitor icon), and 'Help' (with a video camera icon). At the bottom, there is a copyright notice: 'COPYRIGHT 2004-2017. ALL RIGHTS RESERVED'.

Callout boxes provide the following information:

- This is the menu for Agrismart H&S
- This is the menu tab which has been tapped to disclose the menu.
- All current Risks can be viewed by tapping on Risks
- If any messages have been sent from within the H&S they will display here.
- The Farm emergency procedures can be viewed from here.
- The list of Tasks that have been created around risks and incidents can be viewed here and acted upon.
- The full help function for the H&S is available from mobile devices.

It is obvious that the mobile H&S revolves around the following:

1/ Viewing Current Risks

2/ Adding a new Risk

3/ Viewing and undertaking H&S Tasks

4/ Viewing H&S Messages

All are dealt with in more detail below:

Viewing Current Risks

The screenshot shows the AgriSmart mobile application interface. The top navigation bar is green and contains a menu icon (three horizontal lines), an add risk icon (a plus sign), the app name 'AgriSmart', a search icon (magnifying glass), and a lock icon. Below the navigation bar is a list of risk entries. Each entry consists of a risk title, a description, and an action button. Callouts provide additional information:

- Click Risks on the Menu.** (Points to the menu icon)
- This is the Menu icon** (Points to the menu icon)
- This is the ADD RISK icon** (Points to the plus sign icon)
- This is the Logout icon.** (Points to the lock icon)
- This is the Search icon.** (Points to the magnifying glass icon)
- Any risk can be tapped on here so that the full details of the risk can be viewed.** (Points to the risk entries)

Risk Title	Description	Action
Watch the power line over track near barn. It is loose and low. Particularly risky for post banger	Minimise	
Falling from an irrigator	Minimise	
Mats	Eliminate	
Being crushed or impaled while removing antlers	Eliminate	
Falling from or rolling a 4 wheel ATV	Minimise	
PTO cover has fallen off so be aware.	Equinox Farms Minimise	

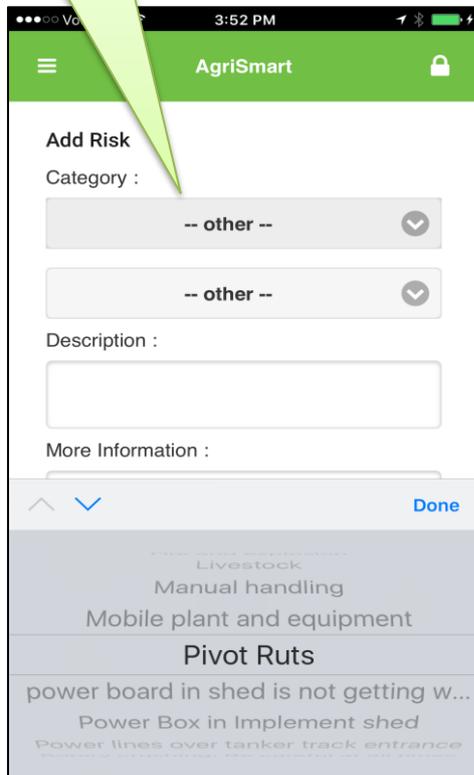

Adding a new Risk

As above:

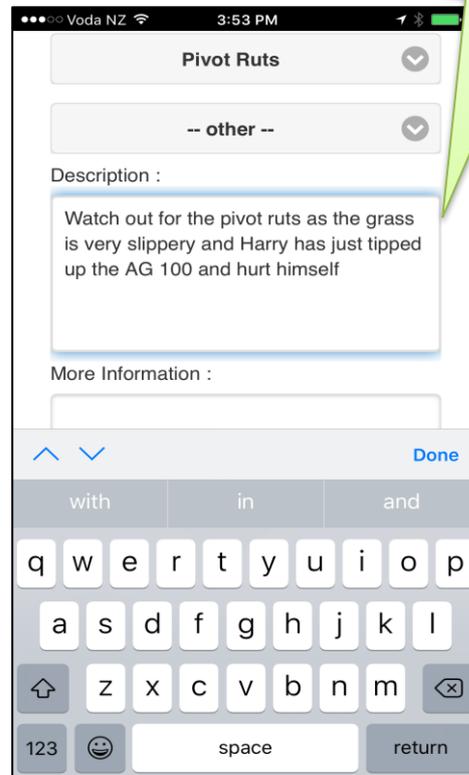

1/ Go to Risks in the Menu

2/ Click on the "Add Risk" icon 

Pick a category and then tap on "Done"

Write in a description of the Risk and then tap on "Done"

Choose from 1 of these 3 options and then tap on "Done"

Add more information in here if required.

Photos can be uploaded here

Watch the ruts in 44-67 as the ground is slippery and harry has just tipped up the AG 100 and hurt himself
Minimise
Watch the power barn. It is loose risky for post
Minimise
Falling from
Minimise
Mats
Eliminate
Being crushed or impaled while removing antlers
Eliminate
Falling from or rolling a 4 wheel ATV
Minimise

Viewing and undertaking Health and Safety Tasks

Tasks come about as a result of creating a task when a Risk is entered. Tasks can't be created on mobile devices however they can be viewed and then actioned.

Find tasks on your mobile version in the menu section.

The image contains two screenshots of the AgriSmart mobile application interface. The left screenshot shows a task card with a 'start' button. The right screenshot shows the same task card with a yellow background and 'complete' and 'undo' buttons. Callout boxes provide instructions on how to interact with these elements.

Callout 1 (Left): All tasks can be found under the Tasks tab. They are displayed as shown.

Callout 2 (Left): Users can action a task by tapping on the "Start" icon.

Callout 3 (Right): A Task is supposedly being done by one of the team when the Task lights up yellow.

Callout 4 (Right): Once a Task has been started these icons show. When the task has been completed simply tap on **complete**.

Viewing Health and Safety Messages

Messages can be sent from a PC only. The messages will come via using messages from within Risks on the PC or by just independently creating a Message from the PC via the Messages tab.
