

Salary and Wages Paid Report

This report will give administrators some valuable information. It is crucial that timesheet entries are accurate to begin with as the accuracy of all the general numbers and formulae are based on the accuracy of the initial timesheet entries.

Information held in this report consists of:

- See the exact cost of all minimum wage top-ups for an individual or the entire team for any time period.
- See the exact values both negative and positive of other adjustments (Annual Leave, Stat days worked and Unpaid leave)

Information can be entered into this report as well:

- Enter Bonus Payments
- Back date salary increases via Bonus Payments
- Create Payslips (Part of the Payroll module)

A Statutory holiday worked (That would otherwise have been taken as a Rostered Day Off) will be paid at time and a ½. Should time and a ½ equal more than contracted daily hours recorded in Agrismart (View against the user in team Manager) then a top up is legally required and that number will display in this column. However if the contracted hours are not met at time and a ½ then the salary could actually legally be reduced.
